SUMMARY

Frontend Developer with 2 years of professional experience building fast, responsive, and user friendly web applications. Skilled in React.js, Redux Toolkit, and modern JavaScript with a strong focus on clean code architecture, performance optimization, and reusable component development. Experienced in collaborating with designers and backend teams to deliver scalable and high-quality products.

WORK EXPERIENCE

React Js Developer , Deutics Global

May 2024 - Oct 2025

- Built responsive and user-friendly UIs using React.js with smooth interactions.
- Managed scalable state with Redux Toolkit and followed reusable component architecture.
- Integrated REST APIs to handle dynamic data and real-time functionality.
- Improved performance through React Hooks, memoization, and clean code practices.
- Converted Figma designs into pixel-perfect production-ready interfaces.
- Applied consistent color palettes and design systems across the product.
- Ensured responsive and cross-browser compatibility across all devices.
- Performed code refactoring, debugging, and UI testing to maintain quality.

Junior React Js Developer, ZNZ Technologies

Jan 2024 - March 2024

- Contributed as a Junior React.js Developer by creating reusable components and managing application state efficiently.
- Developed and maintained web applications using React.js, ensuring robust functionality and maintainability.
- Integrated APIs to dynamically fetch and display data, enhancing application interactivity.
- Implemented responsive designs to deliver seamless experiences across all devices.
- Collaborated with design teams to transform Figma UI/UX layouts into polished, functional interfaces.
- Engaged in code reviews, performed code refactoring, and provided constructive feedback to uphold code quality.

EDUCATION

Superior College

Intermediate (Second Year Completed)

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- **State Management:** Redux Toolkit, React Hooks, Memoization, Component Reusability
- **API & Integrations:** RESTful APIs, Dynamic Data Fetching, Third-Party Service Integration
- **UI/UX & Design:** Responsive Layouts, Figma to UI Conversion, Cross-browser Compatibility
- **Tools & Collaboration:** Git, GitHub, NPM, VS Code, Agile/Scrum, Code Reviews, Debugging
- **Additional Skills:** Styled Components, Material UI, Performance Optimization

CERTIFICATIONS

- MERN Stack Developer – Vvork Cloud Technologies
-

ADDITIONAL INFORMATION

- **Languages:** English, Urdu
 - **Soft Skills:** Teamwork, Communication, Problem-solving, Adaptability
 - **Achievements:** Delivered multiple production-ready projects recognized for clean UI and user-centric design
 - **Hobbies:** Exploring new web technologies, Open-source contribution
-

PROJECTS

Portfolio

- Link: <https://mac-os-portfolio-react.vercel.app/>
- Built a macOS-style interactive portfolio using React and Tailwind CSS.
- Integrated Three.js and GSAP (with Draggable) for 3D animations and interactive UI.
- Used Zustand for global state and Day.js for dynamic time formatting.
- Implemented Lucide icons with clean and scalable component architecture.
- Designed to be optimized for laptops and tablets with smooth layouts.
- Ensured modular, performant, and maintainable code structure.
- Deployed with a fully automated CI/CD pipeline on Vercel via GitHub Actions.
- Every push triggers automatic build and deployment with no manual steps.

AI Resume Analyzer (React.js, TypeScript, React Router DOM, Puter.js, Tailwind CSS)

- Link: puter.com/app/ai-resume-analyzer-190
- Developed a fully responsive AI-powered resume analysis platform using React.js, TypeScript, React Router DOM, Puter.js, and Tailwind CSS.
- Implemented secure authentication with signup/login functionality.
- Enabled users to enter job details (company name, position, and job description) and upload their resume.
- Integrated AI to evaluate how well a resume aligns with job requirements.
- Provided actionable suggestions to improve resume quality and job relevance.
- Designed a mobile-first, fully responsive UI optimized for smooth experience across all devices.

Real Estate Application (React.js)

- Link: realestate-4713d.web.app
 - Developed frontend for a responsive real estate platform using React.js and Router DOM.
 - Implemented property detail pages, search filters, and smooth navigation.
 - Built clean, maintainable code and ensured consistent design across screen sizes.
-
